About Us

For over 20 years, Rocotherm Radiators has re-defined the role of heating, transforming it into an integral element of sophisticated interior design. Specializing in standard and design radiators for bathrooms and living spaces, our creations blend innovative technology with striking aesthetics.

Our radiators do more than provide warmth; they enhance spaces with precision craftsmanship and exquisite finishes. From the deep, bold presence of matte black to the luminous elegance of gold, each piece is a statement of character and refinement. With Rocotherm, heating is not just a necessity - it becomes an expression of luxury and style.

Our Philosophy

At Rocotherm, we embrace a simple yet powerful philosophy: to create radiators that transcend utility and become defining features of the spaces they inhabit.

Our guiding principles:

- **Design as Identity** – Every Rocotherm radiator is more than functional; it's a signature piece, a bold reflection of individuality and elegance.
- **Precision in Creation** – Every detail matters. From carefully selected materials to masterful craftsmanship, we set new standards of excellence.
- **Sustainability by Design** – Efficiency and environmental responsibility shape our innovations, ensuring that our products deliver both performance and sustainability.

As part of RADOX group, Rocotherm carries forward a legacy of innovation, redefining comfort with style.

The Rocotherm Team

Our excellence is forged by the hands of dedicated professionals - welders, polishers, painters, and engineers - who bring every radiator to life with skill and precision.

From the first weld to the final polish, every step is a testament to our team's commitment. More than a factory, Rocotherm is a collective of artisans whose expertise ensures that each radiator is crafted to stand the test of time while delivering unparalleled performance and elegance.

Product Collections That Define Luxury

Discover our exclusive range of design radiators:

- **Gold Line** – Opulent, gilded finishes that enhance luxurious interiors with both beauty and functionality.
- **Noir Line – Bold**, sophisticated black finishes, offering a statement of contemporary elegance.
- **Spectrum Line** – A diverse palette of custom colors, allowing seamless integration into any design vision.
- **Silver Line** – Sleek, high-gloss chrome-plated radiators that exude refinement.
- **Volta Electric Line** – Innovative, energy-efficient electric radiators, perfect for spaces without central heating.
- **Custom Studio** – Bespoke radiators tailored to unique architectural and design specifications, creating one-of-a-kind heating solutions.

A Global Vision

Rocotherm radiators add warmth and distinction to interiors across the globe. From historic European streets to modern Asian skylines, our designs integrate seamlessly with diverse architectural styles and lifestyles. Wherever they are installed, Rocotherm radiators symbolize a commitment to quality, craftsmanship, and timeless sophistication.

Uncompromising Quality

Quality is not an option at Rocotherm - it is our foundation. Every radiator we produce undergoes rigorous testing and is crafted from superior materials, ensuring longevity and flawless performance. When you choose Rocotherm, you invest in innovation, craftsmanship, and enduring excellence.

Electrical heaters

HEC heating elements for electric radiatoars features TIMER TURBO and TIMER START-STOP, 4-stage temperature regulation (30°C – 60°C), controller rotation (0° – 330°), ANTIFREEZE function, overheating and dry operation protection, ultra-low standby power consumption, and intelligent microprocessor control.

Accessories

ROCOTHERM accessories, including robe hooks, square robe hooks, and towel hangers, add both style and function, ensuring every radiator is a perfect fit for any interior.

Signature Models

Each Rocotherm radiator is a fusion of innovative technology and bold aesthetics. Our collections include:

- **ELLIE 3** – A contemporary masterpiece, blending geometric purity with high-performance heating. pag 5
- **EROS & EROS WIDE** – Elegance in motion, offering sleek lines and efficient warmth. pag 6
- **FLOW P** – A fluid and dynamic design, embodying minimalism and sophistication. pag 7
- **HERA** – The epitome of luxury, combining bold aesthetics with top-tier functionality. pag 8
- **HERCULES** – A robust, architectural piece designed to command attention. pag 9
- **KOLONA VP 42** – Innovation and efficiency in a striking package. pag 10
- **LOTUS P** – Inspired by organic forms, seamlessly integrating into refined interiors. pag 11
- **MINIMAL** – A study in simplicity, elevating understated elegance. pag 12
- **MIRROR** – A fusion of practicality and artistry, reflecting both warmth and design. pag 13
- **NEOS** – Pushing the boundaries of modern heating with futuristic appeal. pag 14
- **OCTAGON** – A balance of function and visual harmony, perfect for contemporary settings. pag 15
- **PREMIER WIDE** – Redefining sophistication with clean lines and advanced efficiency. pag 16
- **SHEER P & SHEER PP40** – An avant-garde approach to modern heating. pag 17
- **TREE** – High-performance heating solutions with sleek, minimalist aesthetics. pag 19
- **UNIS** – A sculptural statement, combining artistic form with optimal heat distribution. pag 20
- **FLOOR CONVECTORS** – Our floor heating connectors are the best solution for seamless heating integration.. pag 22

ELLIE 3

A contemporary masterpiece, Ellie 3 harmonizes geometric purity with high-performance heating. With its sleek, well-defined lines and meticulously crafted structure, this radiator is designed to complement modern and minimalist interiors. Combining efficiency with an artistic presence, Ellie 3 elevates any space with its seamless blend of form and function, ensuring optimal warmth while making a striking visual statement.

OCTAGON

Crafted entirely from high-grade stainless steel, OCTAGON is a statement piece for high-end bathrooms. With its angular lines and polished surfaces, it delivers not just radiant heat, but also timeless refinement. Resistant to corrosion and built for longevity, OCTAGON is the ultimate fusion of durability and exclusive design. It's a choice for connoisseurs of luxury, where every detail is a declaration of taste.

UNIS

UNIS is the embodiment of minimalist design—pure lines, subtle geometry, and perfect proportions. Ideal for modern interiors, this radiator brings understated elegance to any bathroom or living space. Whether you choose the timeless chrome finish or the refined sophistication of a powder-coated color, UNIS seamlessly blends into its surroundings while delivering reliable, efficient warmth. It's a design that speaks softly but leaves a lasting impression.

TREE

TREE redefines vertical heating with bold simplicity. Designed for narrow spaces or as a striking visual accent, it features a single, thick tubular form complemented by branch-like hooks—perfect for towels or robes. Painted in matte, textured or satin tones, TREE performs as an efficient radiator while doubling as a functional design piece. It's ideal for those who value both warmth and visual creativity in their interior aesthetic.

Floor Connectors

Precision Meets Innovation

Engineered for efficiency and reliability, these connectors ensure optimal heat transfer while maintaining a discreet and elegant appearance. Designed to be robust yet unobtrusive, they offer:

- **Minimalistic Design** – Perfectly blends with contemporary flooring solutions.
- **Superior Durability** – Crafted from high-quality materials for long-term performance.
- **Efficient Heat Distribution** – Maximizing warmth while reducing energy consumption.

Durable Materials

- **Heat exchanger:** Copper pipes with aluminum fins
- **Casing:** Galvanized sheet metal, standard painted in gray (RAL 7015)

Wide Range of Sizes

- **Lengths:** 900 – 4500 mm
- **Widths:** 140 – 410 mm
- **Heights:** 90, 110, 130 mm
- On request, convectors can be manufactured in non-standard sizes and custom shapes

Pressure

- **Operating pressure:** 10 bar
- **Test pressure:** 13 bar

Maximum Temperature

- 110°C

Standard Components

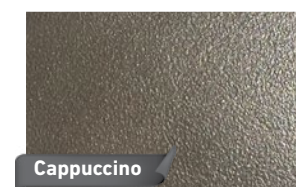

- Manual air vent
- Adjustable leveling screws
- Anchors for casing fixation
- Galvanized sheet metal cover painted in RAL 7015 for concealing heating connections

Customization of Finishes and Colors

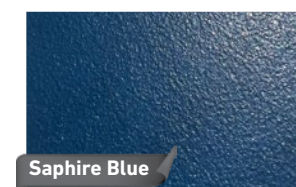

- **Wood options:** Beech and oak, natural, stained, or lacquered
- **Aluminum:** Painted in various colors
